

October 19/20, San Diego Surf & Sail Weekend

33 entrants attended this 'Nationals Nostalgia' Weekend in what turned out to be an unprecedented competition that well may set a new style for free-sail competitions. Saturday's racing was cut short (4 races) due to very light air & the rush to make it to the keg party after the racing. Sunday's competition was held in the surf at Tourmaline where the scoring was computed as at a surfing contest. A limited time span (45 minutes) was allotted and each ride was given a point value on a scale of 1 (perfect) to 10 (bottom) with heavy consideration being given to take-offs, general form, technique, & style, section breakthroughs, maneuverability in the wave, length of ride, and pull-out. There were 4 judges on each ride and an average of the 4 scores was recorded. The best 3 rides (3 lowest scores) were added together for a point score that was then combined with an inverted point score for number of waves caught, netting a total for the event. Matt Schweitzer and Doug Day, well known as southern Calif. surfers & windsurfers, swept the event with their flamboyant surfing techniques on the windsurfer. This was a truly spectacular event and one that will definitely be repeated.
